

Designed for efficiency, built to last.

The 390 sliding patio door will brighten any room in your home with its energy efficient design and attention to detail. With simple, clean lines and strong construction, you'll admire the craftsmanship of your door for years to come.

Standard features include adjustable heavy-duty rollers, dual mortise lock, and your choice of a white or adobe frame color. The multi-chambered frame creates sealed air spaces which provide an effective insulating barrier. Fully welded door panels and mainframe add strength to the door and protect against water and air infiltration. Double weatherstripping, metal reinforcement and an interlock at the center rail work together to keep your door tightly closed against wind and weather.

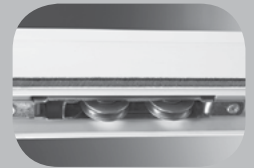

Dependable security, durability and easy operation are just a part of the story on how MIWD has transformed a good idea into a great door for every home style.

- TMAX ALL ZONES glass package
- Keylock
- Heavy-duty screen
- Flat or sculptured grid patterns
- Glass breakage warranty

Glass

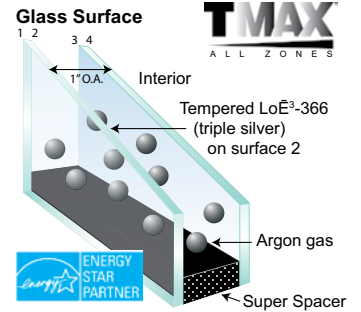

In warm weather, LoE³-366 glass reduces solar heat gain, minimizes interior glare and lowers inside glass temperature, saving energy. In cool weather, LoE³-366 glass provides outstanding thermal performance with warmer inside glass surfaces to help save energy and maintain comfort during the cold winter.

Standard Glass Package

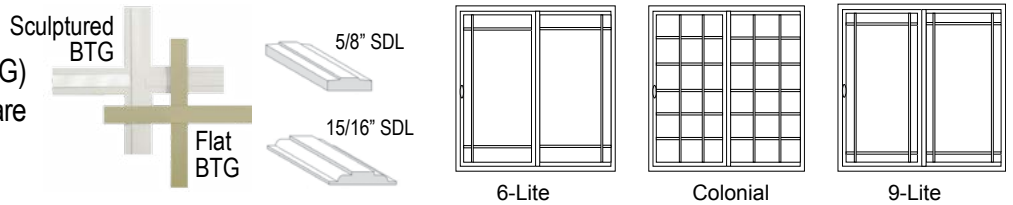

Glass Option

Grids

Flat or sculptured between-the-glass (BTG) and Simulated Divided Lite (SDL) grids are available in standard and custom patterns.

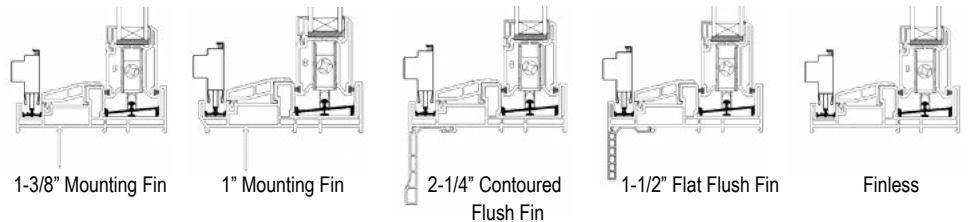

Cool Colors bronze, a laminate color option on the exterior of the 390 patio door is made with a special embossing process that creates a rich matte finish. Cool Colors technology provides a significant reduction in heat build-up of the profiles in intense sunlight. This ability is greatest with dark coated window profiles able to reflect up to 80% of infrared solar radiation.

Min / Max Frame Sizes

	Min Width	Max Width	Min Height	Max Height
2-Panel	47-1/2"	119"	71-1/2"	95"
Fixed Panel	11-3/16"	48"	71-1/2"	96"
